

Sales & Profit Dashboard - Business Insights

Executive Summary

This dashboard analyzes retail sales performance across products, customers, locations, and time using Microsoft Excel.

Key Performance Indicators

Total Sales: \$1,928,888

Total Profit: \$247,961

Key Insights

- Technology is the most profitable category over the analyzed years.
- Phones and Chairs are among the highest-selling sub-categories.
- Sales peak during November and December, indicating strong year-end demand.
- California is the top-performing state by sales.
- A small group of customers contributes a significant share of total profit.
- Profit generally increased from 2021 to 2023 before stabilizing in 2024.

Business Recommendations

- Increase inventory before Q4 to meet seasonal demand.
- Prioritize high-margin Technology products.
- Strengthen marketing in top-performing states while improving performance in low-sales regions.
- Launch loyalty programs targeting high-value customers.
- Monitor low-performing categories for pricing and assortment improvements.
